Dear The Federal Communications Commission,

Congratulations on your appointment to Chair the FCC.

I urge you to support the "Fair Share Plan" as a solution to current concerns with the Universal Service Fund (USF).

Reasonable rates for local telephone are especially important to this consumer: I depend on my land line phone for confidentiality in discussing financial and medical matters, in particular. I will be distressed if one day I find I can no longer afford it.

Under the flat fee or numbers-based plan you are considering, people like me who make few long distance calls would pay the same as people or businesses that make many calls. I believe it would be unfair to charge low-volume and residential customers the same fees as high-volume residential or business customers.

I urge you to keep the USF fair, and adopt the Fair Share Plan. Thank you.
